

To Those Who Auditioned for *Beauty and the Beast*

Congratulations on being cast!

If you did not receive the role(s) you wanted, do not be discouraged. An important question to ask yourself after viewing the cast list is “Do you want the PART or do you want to be part OF this production?” There will be disappointment for some of you and that is normal, but it is important to realize there can only be one Belle, one Beast, etc.

You may want to ask me why you were not cast in a certain role, but all I will say is “every production is different and so is every director.” In the last 17 years, I have auditioned for 30 shows, and was cast in 14 of them. Out of those 14, I was cast in 2 lead roles, but ZERO dream roles. (I also auditioned for Beauty and the Beast twice and did NOT get cast in either production.) I have experienced a lot of disappointment, but I continue to audition because I love theatre. I hope you all continue to audition and see the value in every production you are a part of no matter what part you play.

I will share more information, particularly about when we will read through the show as a group the next time we meet. Please read the entire cast list, especially the bottom to see if you are a Villager or in the Flatware group. Because there are so many of you, the group must be divided.

See you all soon! I can't wait to get started!

- Mrs. Brodie
